Frontend Developer | Full-Stack Web Developer | B.Tech CSIT

## PROFESSIONAL SUMMARY

---

- Pre-final year B.Tech CSIT student specialising in full-stack and frontend web development.
- Built production-grade web applications using Next.js 14 | React.js | TypeScript | Tailwind CSS | Node.js | Supabase.
- Skilled in Razorpay payment integration, user authentication, REST APIs, third-party API integration, and CI/CD deployment via Vercel.
- **Actively seeking a Frontend Developer or Full-Stack Web Developer internship to build and deliver real-world web applications.**
- Open to roles in Web Development, Full-Stack Development, and Software Development.

## TECHNICAL SKILLS

---

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js 14, TypeScript, Tailwind CSS, Bootstrap, Responsive Design, Cross-Browser Compatibility, Debugging

**Backend & APIs:** Node.js, REST APIs, Razorpay Payment API, Google Maps API, WhatsApp Business API

**Databases:** Supabase, PostgreSQL, SQL

**Cloud & DevOps:** Vercel, Firebase, Git, GitHub, CI/CD, npm, SEO Optimisation, Version Control

**Programming:** Python, C, C++

**Core Concepts:** OOP, DSA, Mobile-First Design, API Design, Agile / Sprint-Based Development

**Soft Skills:** Problem Solving, Team Collaboration, Attention to Detail, Time Management, Communication, Adaptability

**Productivity:** VS Code, MS Office (Word, Excel, PowerPoint)

## WORK EXPERIENCE

---

### Frontend Developer Intern | Zidio Development (Remote)

Jun 2025 – Aug 2025

*Technologies: HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design*

- Designed and developed responsive user interfaces using HTML5, CSS3, JavaScript, and Bootstrap, ensuring full cross-browser compatibility and mobile-first design principles across all target devices.
- Built and deployed interactive web components and reusable UI elements with focus on performance optimisation, web accessibility, and consistent cross-browser behaviour.
- Collaborated with cross-functional development teams in an Agile environment, delivering all assigned features within sprint timelines — earning formal recognition for dedication and professional excellence.
- Conducted thorough code reviews and maintained clean, well-documented codebases adhering to industry best practices for scalable frontend development.

## PROJECTS

---

### Tradeverse City — Full-Stack EdTech Web Platform

**Tech Stack:** Next.js 14 | React.js | TypeScript | Tailwind CSS | Vercel | Razorpay API | WhatsApp Business API | Supabase

- Built a full-stack EdTech web platform for stock market education — a dark-themed, multi-page responsive website with dynamic routing, dedicated course pages, a learning centre section, an eBooks library, and complete authentication flows.
- Developed the frontend entirely using Next.js 14, React.js, TypeScript, and Tailwind CSS — following mobile-first, component-driven architecture with clean, reusable UI structure.
- Integrated Razorpay payment gateway for course enrollment with real-time payment status handling; connected Supabase for user data, session management, and content delivery.
- Built a live stock market ticker displaying real-time NIFTY, BANKNIFTY, and SENSEX indices, and integrated WhatsApp Business API for automated course enquiry and lead capture.

- Deployed via Vercel CI/CD pipeline with full SEO metadata, Open Graph tags, and performance optimisation.

**Smart Parking Finder System**

***Tech Stack:** React.js | TypeScript | Tailwind CSS | Supabase | Leaflet.js | Google Maps API | Razorpay API*

- Built a full-featured Smart Parking web application enabling real-time parking slot availability detection, seamless online booking, and digital payments via Razorpay API for urban commuters in Delhi NCR.
- Developed an interactive, mobile-first map interface using Leaflet.js for location-based parking discovery, proximity filtering, and in-app navigation to the nearest available slot.
- Implemented real-time data synchronisation using Supabase for live slot status updates, secure user authentication, and complete booking lifecycle management.
- Designed a clean, responsive UI with React.js, TypeScript, and Tailwind CSS ensuring accessible component architecture across all device sizes.

**CERTIFICATIONS**

---

- Generative AI Professional — Oracle University
- Networking Basics — Cisco Networking Academy (Nov 2025)
- Cloud Computing — NPTEL
- C Programming Training — Spoken Tutorial Project, IIT Bombay (Dec 2023)
- Web Development Internship Certificate — Zidio Development (Jun–Aug 2025)
